

Uttam S. Thapa Full Stack Developer | Software Engineer

 uttamt1202@gmail.com  +91-7303896794  Website  GitHub  LinkedIn

 Mumbai-400 078, Maharashtra, India  portfolio

OBJECTIVE

Full Stack Developer with hands-on experience building scalable, production-grade web applications and multi-tenant systems using Next.js, Node.js, Fastify, PostgreSQL, and modern backend architectures. Experienced in developing frontend interfaces, backend services, database-driven applications, secure APIs, authentication systems, and deployment workflows. Currently contributing to CRM and logistics platforms with a focus on performance optimization, maintainability, and scalable software design across the complete development lifecycle.

Professional Experience & Projects

Software Developer (Full Stack)

Growve Retail and Management Service Pvt Ltd

09/2025 – Present | Mumbai, India

- Contributing to a production-grade multi-tenant CRM and logistics platform using Next.js, Fastify, PostgreSQL, Prisma, and schema-per-tenant architecture.
- Developed backend services, authentication flows, database-driven features, and tenant-isolated workflows across CRM modules.
- Built webhook and logistics integrations including AWB generation, RTO handling, and real-time shipment tracking.
- Improved system performance using PostgreSQL indexing, Redis, queues, and background workers for workflow automation.

Golden Leaf Knots & Velvet Loop – Full Stack Ecommerce Platforms

04/2026 – 06/2026 | Mumbai, India

Tech: React.js, Node.js, Express.js, PostgreSQL, Prisma ORM, Razorpay, Tailwind CSS, Zod, Cloudinary, Vercel, Render

- Built and deployed production-ready ecommerce platforms for two real businesses, supporting product catalogs, checkout flows, inventory management, customer orders, and admin operations.
- Designed secure payment workflows using Razorpay with server-side verification, payment-state management, duplicate payment prevention, retry handling, and transactional order processing.
- Developed scalable backend systems using PostgreSQL and Prisma with REST APIs, schema validation, stock consistency checks, and optimized database workflows.
- Implemented admin dashboards, automated email notifications, image management, address validation, and production deployment pipelines across frontend and backend services.

AI Travel Planner

01/2025 – 05/2025 | Mumbai, India

Tech: React.js, Tailwind CSS, Node.js, Express.js, Firebase, Python, scikit-learn, OpenCV

- Built a full stack AI-powered travel platform with destination discovery, personalized itinerary generation, and mobile-first user experiences.
- Developed backend services with authentication, server-side filtering, JWT-based security, and Firebase-powered data management workflows.
- Integrated Python-based AI/ML modules for landmark detection and recommendation workflows, with automated deployment using GitHub Actions, Vercel, and Firebase Cloud Functions.

SKILLS

Programming Languages

JavaScript (ES6+), TypeScript, Python, C, C++

Frontend

Next.js, React.js, Tailwind CSS, HTML5, CSS3, SEO

Backend

Node.js, Express.js, Fastify, REST APIs, JWT Authentication

Databases & ORM

PostgreSQL, MongoDB, MySQL, Prisma ORM, Sequelize, Firebase Firestore

Cloud & Integrations

Redis, Razorpay, Cloudinary, Firebase, Webhooks, Queue Systems

DevOps & Tools

Git, GitHub, GitHub Actions (CI/CD), Docker, Postman, Vercel, Netlify, Render

AI & Additional

OpenAI APIs, OpenCV, scikit-learn, Flask APIs, Pandas, NumPy

EDUCATION

B.E. CSE, Mumbai University, 2021–2025

(CGPA: 9.56)

HSC: 91% | SSC: 87%

CERTIFICATIONS

Google Cloud Associate Cloud Engineer (ACE)

Google Cloud 8 April 2024

Full Stack Web Developer

PW Skills 3rd July 2024

Hackathon

Recursion, RGIT 14 March 2024

ADDITIONAL INFORMATION

Languages

English (Fluent), Hindi (Native), Marathi (Conversational), Nepali (Conversational)

Interests

AI/ML, Full Stack Web Development, Open-Source Contributions, Competitive Coding
